

Infusionarium

A therapeutic visual and auditory program for chemotherapy, dialysis, infusion, palliative care, rehab centers, behavioral health, clinical staff well-being (and more)

“By giving patients some control over their treatment experience, we were able to dramatically reduce the need for side effects medication.”

— Alli Langdon, R.N., B.S.N.,
CPON Manager, CHOC Children’s

Immersive Healing Experiences

- Patients are surveyed about their personal healing places
- Their surveys direct the creation of the Immersive Healing Video Experiences
- Patients use the global library of over 40 immersive experiences to gain control and comfort in their treatment environments
